PROFESSIONAL SUMMARY

Python Full Stack Developer with hands-on experience in Python, Django, Django REST Framework, React, REST APIs, and SQL through internship experience and full-stack project development. Experienced in building responsive web applications, developing and testing APIs, implementing authentication, managing databases, and deploying applications. Seeking an opportunity to contribute to real-world software projects and grow as a full-stack developer.

INTERNSHIP

Python Full Stack Developer Intern

OneTeam Edtech Pvt Ltd. | Nov 2025 – Aug 2026

- Developed and maintained full-stack web applications using Python, Django, Django REST Framework, and React.
- Built responsive and interactive user interfaces using HTML, CSS, Bootstrap, JavaScript, and React.
- Developed and tested REST APIs using Django REST Framework and Postman for frontend-backend integration.
- Designed and managed databases using MySQL and SQLite, implementing efficient data storage and retrieval.
- Collaborated using Git and GitHub for version control, code management, and team-based development.

SKILLS

- **Programming Languages:** Python, JavaScript
- **Frontend:** HTML, CSS, Bootstrap, React, Vite
- **Backend:** Django, Django REST Framework, REST APIs
- **Authentication:** JWT Authentication, Google OAuth 2.0
- **Asynchronous Tasks:** Celery, RabbitMQ
- **Database:** MySQL, SQLite
- **Tools:** Git, GitHub, Postman
- **Deployment:** PythonAnywhere, Vercel

PROJECTS

Personal Expense Tracker with Expense Sharing | Jun 2026 – Aug 2026

- Developed a full-stack expense management application using React, Vite, Django REST Framework, and SQLite, connected through RESTful APIs.
- Implemented JWT authentication and Google Sign-In with secure user access and password management.
- Built personal expense tracking with CRUD operations, custom categories, filtering, analytics, and monthly reports.
- Developed group expense-sharing features including equal/custom expense splitting, balance tracking, debt optimization, member invitations, and settlements.
- Created a responsive dashboard with expense summaries, charts, recent activity, notifications, and profile management.
- Integrated Celery and RabbitMQ for asynchronous email invitations and notification processing.
- Deployed the application with the frontend on Vercel and backend on PythonAnywhere.

Project Live Demo - <https://personal-expense-tracker-topaz-six.vercel.app/>

Personal Expense Tracker | Mar 2026

- Web-based application for managing personal expenses using Django and SQLite
- Implemented CRUD operations for managing daily expenses
- Added user authentication system for secure login and personalized data access
- Designed category-based expense tracking with filtering and monthly analysis features
- Integrated data visualization (charts) to analyse spending patterns
- Built responsive UI using HTML, CSS, Bootstrap, JavaScript

Project Live Demo - <https://nishana.pythonanywhere.com/>

PROFESSIONAL EXPERIENCE

Technical Support Executive

Horizon Technology Solutions | 2017–2019

- Served as the primary point of contact for clients reporting software issues via phone, email, and chat
- Diagnosed and resolved software and system issues using TeamViewer
- Escalated complex technical problems to senior support teams and ensured timely resolution
- Maintained daily reports to ensure service quality and issue visibility.
- Installed and configured software applications and conducted user training sessions
- Prepared software documentation, user manuals, and support-related records.

EDUCATION

Bachelor of Computer Application (BCA) | 2015

Siena College of Professional Studies – Mahatma Gandhi University.
